

JARVIS

VERY SIMPLE WINDOWS SETUP - FREE, PRIVATE, AND LOCAL

1

INSTALL JARVIS

Double-click JARVIS-Setup-0.3.0.exe. Choose Install. JARVIS creates its own desktop shortcut and opens automatically.

2

INSTALL OLLAMA

Click ollama.com/download/windows, install it, and leave the small Ollama icon running near the Windows clock. Already have Ollama? Skip this step.

3

OPEN JARVIS

JARVIS connects to Ollama automatically. In Settings, a green light saying **LOCAL BRAIN ONLINE** means you are finished.

FIRST-TIME SETTINGS

1. Enter your name.
2. Add folders JARVIS may search.
3. Select Install Local Voice for free wake word and speech.

TRY THESE COMMANDS

Hey Jarvis, add a task.
Hey Jarvis, find my latest report.
Hey Jarvis, remember this note.

No OpenAI API key, credits, or subscription required. The first model and voice downloads can take several minutes. An unsigned giveaway installer may show an Unknown publisher warning.

Unofficial fan-made productivity software. Not affiliated with Marvel, Disney, OpenAI, or Ollama.
